

## Superpowering the human body

### Capability Statement

CIONIC is an assistive technology company that can analyze and augment human movement, enabling the body to move with more freedom and control. Our lightweight, durable, and flexible orthosis is driven by powerful algorithms that adjust to each individual's mobility needs. CIONIC is on a mission to superpower human mobility, empowering people of all abilities to move without limits.

#### Description of major services offered:

- Neural Sleeve

- Registered company name: CIONIC, Inc.
- Year of incorporation 2018
- State of incorporation State of Delaware
- SAM entity ID GEUJGGJFY2J5
- Corporation type C-Corp
- D-U-N-S Number 08-135-1601
- CAGE Code 9DX25
- FDA Facility Registration 3019892999
- Accredited CHAP Home Medical Equipment provider (exp. 5/5/26)
- FDA Clearances: K221823, K213622

#### Core competencies:

- Design, manufacturing and configuration of wearable Functional Electrical Stimulation orthoses
- Development of customized gait assistance algorithms
- Live, virtual customer support for patients and their clinicians

#### Differentiators:

- **Advanced:** first FDA-cleared product to stimulate all four muscle groups in the leg.
- **Convenient:** configured remotely by Cionic's technicians. No in-person vendor site visits are required.
- **Comfortable & Sleek:** lightweight, breathable garment that can be worn anywhere, on its own or under clothing.
- **Dynamic:** the first wearable garment to combine sensing, analysis, and stimulation.
- **Targeted:** software-steered current goes directly to the muscles rather than to a nerve.
- **Adaptive:** the system also automatically updates with every step you take, constantly adapting to your timing.
- **Portable:** the CIONIC App controls your experience, allowing you to customize your settings and access a library of exercises.

**NAICS Codes NCAIS 334510** - Electromedical and Electrotherapeutic Apparatus Manufacturing
